From: Name  
Address

Dear Mr. Sackett,

I just recently became aware of the FBMP proposal in the western Antelope Valley. I am a long time resident of the valley and I currently live in the city of Lancaster. I do not consider myself to be an “environmentalist”, but I am against any development that is not suited for our area. The proposed racetrack is not needed, as there is already one in nearby Rosamond. I don’t believe that there are that many local car racers that would justify yet another track. Also, isn’t the site of the proposed race track near the Poppy Park? I don’t think that it is a good idea to build a racetrack so near a site that most people in the Antelope Valley treasure so highly. The Poppy Park is, after all, the only protected land in California for our beloved state flower, the California Poppy. Please do not allow this racetrack to be built; it would be a regrettable act.

Sincerely,

Name
